

It is my understanding that the FCC will be making a decision of local fm stations. I would like to comment about this. KLOVE and AIR1 radio is transmitted into the Scottsbluff area from California. Both of the stations would be drastically missed if the actions will be taken. Both of the stations serve this area with Great Christian music and spreading the Gospel of Jeusus Christ. The effect of losing these stations to this area will be drastic because with out them the only other option to us Christians are "Christian talk radio" and it does not completely fulfill the needs of the community. I hope that your decision will be to continue to allow the type of Christian radio that KLOVE and Air1 supplie to continue in this area. Please continue to give the Christians of this area the opportunity to worship God in this way. May God bless you and America
